

## INTERNATIONAL DOG'S DAY

The International Dog's Day was celebrated on 27 August 2018. Students of both Shift I and Shift II brought their four-legged pals with prior checking of their vaccination dates and medical records. Videos with the dog's name, image, hobbies, likes and dislikes were projected in the LED during the break. Students welcomed the pets with great joy and love. The dogs were well behaved and enjoyed the presence of students around them. The photography club clicked as many images as possible of the adorable dogs and students. The event had a great response from students and faculty.
