

TEACHERS' DAY

A teacher holds a hand, opens a mind and touches a heart. Teachers' Day is celebrated as a tribute to the valuable contributions made by the teachers.

At the celebrations of this important day, the mime club presented a classroom setting and the efforts taken by teachers to enhance the knowledge of students. Other clubs that put up good performances were the light music club, the western dance club, the classical dance club and the folk dance club.

The second phase of the afternoon get-together saw the teachers further entertained, this time by the Students' Union, when one of the members, along with Ankita, a student of B.A History, dedicated a few musical notes to the teachers. Presents, refreshments, games and dancing marked the rest of a Happy Teachers' Day.
