CHARITY

STELLA MARIS COLLEGE
(AUTONOMOUS), CHENNAI - TAMILNADU

The Principal, Management,
Faculty & Students of the Department of Bioinformatics
cordially invite you to the inauguration of the

One-Day Workshop on Lead Optimization and Candidate Selection

Organised by:

Date: October 13, 2017
Venue: HC Conference Hall, Ground Floor
Time: 9:00 am

The Department of Bioinformatics, Stella Maris College, is privileged to host the Chennai Chapter International One-day workshop on **Streamlining Drug Discovery**, in collaboration with Zastra Innovations, Bangalore and Optibrium, Cambridge UK.

The workshop will be held on 13 October at Stella Maris College at 9.00 a.m.

Similar one-day symposiums have previously been organized in England, San Diego, Korea, Japan and Germany and this will be the first in India. Optibrium, will use its industry-leading StarDrop software to provide hands-on examples of compound optimisation during this interactive workshop which will explore the latest developments in methods that guide compound selection and design to quickly identify high quality candidate drugs.

Nick Foster, Head of Commercial Operations of Optibrium, Cambridge UK, will deliver the keynote address on the topic, “The Importance of ADMET in Drug Discovery” and will lead the workshop along with Mr Girinath Pillai, CEO of Zastra Innovations and faculty from Stella Maris College.
