

STELLA MARIS COLLEGE (AUTONOMOUS), CHENNAI

Department of Food Processing and Quality Control

Feedback and Action Taken Report

2017-2018

The advisory meeting was conducted with Mr. Subhojit Mukherjee , representative of FICSI, Industrialists and academicians. It was suggested that the Qualification Pack for level 7 can be Production Manager. Industrialists offered to train students in Food Safety including Water analysis, in compliance with the prescribed National standards.

The Faculty, Industry representatives and BoS members suggested changes in the following courses

16VF/VM/CN56: Community Nutrition and Fortification of Foods: Addition of objective “To provide awareness on the National Nutritional programmes to combat nutritional disorders” in the Community Nutrition Course. Inclusion of Marasmus and disorders and re-ordering of the units.

16VF/VM/SE56: Entrepreneurial Initiatives: Include the objective ‘ to gain the awareness on Innovation and giving different dimension to Food Products’ and add “ Identification and Evaluation of Products based on Idea, Market demand, competition, Availability of raw material and Production Feasibility’ and ‘Scaling up from the pilot plant / incubator stage’.in Unit 4

16VF/VM /SE56: Sensory Evaluation with Laboratory Work: Merge the content as Definition and Importance of Sensory Evaluation in Unit 1.1

Action Taken:

The suggested objectives for the Community Nutrition and Fortification of Foods and Entrepreneurial Initiatives were included.

The merging of the contents was implemented in the course Sensory Evaluation with Laboratory Work.

The above suggestions were incorporated and passed in the Academic Council
