

STELLA MARIS COLLEGE (AUTONOMOUS), CHENNAI

Department of Sustainable Energy Management

Feedback and Action Taken Report

2016-17

The advisory meeting was conducted with the member of the Green Jobs, the Sector Skill Council, Industrialists and academicians. Mr. Tanmay, CEO of Green Jobs appreciated the prototype of the Solar panel – PV module and encouraged the department to have more such models. He suggested that the final year could have NSQF level 7 at the managerial level.

Mr. Tanmay indicated that the number of hours designated for Training /Practicals be documented as a log book to keep track of the Skill sets training. He advised establishing Simulation labs for the course. The members also reiterated that the above suggestions were more practical and will help the students and industries all over the country. They suggested that the industries would assist in training the students. They opined that the QPs for the third and fourth semesters at level 5 and 6 which will focus on Biomass.

These suggestions were taken up at the Board of Studies meeting. The following suggestions were made :

Semester 3 : 16VS/VM/WM36: Waste Segregation and Management

Inclusion of “ Health Safety Policies” and the same can be assessed as the third component

16VS/VA/EN35: Environment and Ecology

The board suggested the following: The LTP pattern can be changed to 4 0 1 instead of 4 0 0.

The practical part can be assessed as a 3rd component.

Semester 4: 16VS/VM/AB46: Advanced Bio Energy

A topic on Effect on Environment can be added as 4.1

Action Taken:

In the course Waste Segregation and Management, a unit on Safe Management of Wastes was included

In the course Environment and Ecology, a practical hour was included

In Advanced Bio Energy, the topic on Effect of Environment on sustainability was included in 4.1 as suggested
