### **Guest Lecture – Connecting the Dots! Understanding the Intricacies of Business Mathematics and Statistics**

On July 14, 2023, ISDC's international trainer, Mr. Lokesh Payasi, led a lecture on business maths and statistics for II and III year BBA students between 2:00 pm and 3:00 pm at Shyam Kothari Hall, SS Block. Mr. Lokesh Payasi explained how a plethora of data could easily be condensed into a small snapshot that represents the original data with relatable illustrations. During his informative lecture, he touched upon various statistical measures and tools like the measures of central tendency, measures of dispersion, deviations and concepts like null and alternate hypotheses. While concluding his lecture, he left students with a sense of consolation, assuring them that AI could never replace humans in the field of statistics and urged students to equip themselves for a radically changing workspace. Mr. Lokesh Payasi ingrained a comprehensive understanding of statistics and its ubiquitous requirements today and in the future.
