

Jayshree Venkatraman Digital Learning and Research Center Launched

[komalsingh](#) 1 week ago

A Digital Learning Research Center was established by the family of TAFE (Tractors and Farm Equipment) and Jayshree Venkatraman under the name of Jayshree Venkatraman, formerly Chairman of AMCO Battery and Director of TAFE.

The Jayashree Digital Learning and Research Center was founded at Stella Maris College in Chennai and is the physics for conducting online and hybrid courses, creating web-based learning modules, and optimizing online collaboration with academic institutions and industries around the world. We provide targeted and digital infrastructure. In the statement.

Established by TAFE Chairman and Managing Director Mallika Srinivasan, the high-tech center provides a learner-centric digital skill model to prepare students for a smooth transition from campus to the corporate world.

“As a business leader, Jashley was passionate about excellence. She is known for her open mind and generously supports her meaningful purpose in improving the lives of those around her. Jashley was enthusiastic about advancing women’s education and professional aspirations, and for many years formed a strong and pious bond with her alma mater, Stella Maris University. This state-of-the-art digital center is with her. Dedicated to the spirit of life she symbolizes, “says Marika Srinivasan.
