**HTTPS://JOURNALFINDER.WILEY.COM**

**WILEY** Journal Finder Beta

## Find the journal that's right for your research Beta

Not sure where to submit your article? Our Journal Finder Beta can suggest Wiley journals that may be relevant for your research. Simply enter your title and abstract and we'll create a list of potential journals for you to consider. We also recommend reviewing the journal's Aims and Scope before deciding where to submit.

If you already know which journal you're interested in, select Find Journal by Title.

# Browse, search, and explore journals indexed in the *Web of Science*

The *Master Journal List* is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the *Web of Science* platform. Spanning all disciplines and regions, *Web of Science Core Collection* is at the heart of the *Web of Science* platform. Curated with care by an expert team of in-house editors, *Web of Science Core Collection* includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the *Web of Science Core Collection*, you can search across the following specialty collections: *Biological Abstracts*, *BIOSIS Previews*, *Zoological Record*, and *Current Contents Connect*, as well as the *Chemical Information* products.

The image shows the top portion of the Edanz website. The header features the Edanz logo on the left, followed by the tagline 'INNOVATIVE SCIENTIFIC SOLUTIONS'. To the right of the logo are navigation links: 'Pharma', 'Researcher Services', 'English Editing', 'Learning Lab', and 'EXCITED By The SCIENCE'. Further right are 'Log In' and 'CREATE ACCOUNT' buttons. The main hero section has a background image of a molecular structure. It contains the headline 'Scientific Expertise. On-demand. Today.' and a sub-headline 'Meet the demands of your target journal with expert language editing and custom solutions from world-class research and publication experts.' At the bottom of the hero section are two buttons: 'Expert Editing' and 'Researcher Services'. In the bottom right corner, there is a Windows activation watermark and a small blue square with an upward arrow.

## Welcome to Jane

Have you recently written a paper, but you're not sure to which journal you should submit it? Or maybe you want to find relevant articles to cite in your paper? Or are you an editor, and do you need to find reviewers for a particular paper? Jane can help!

Just enter the title and/or abstract of the paper in the box, and click on 'Find journals', 'Find authors' or 'Find Articles'. Jane will then compare your document to millions of documents in *PubMed* to find the best matching journals, authors or articles.

### Keyword search

Instead of using a title or abstract, you can also search using a keyword search, similar to popular web search engines. Click [here](#) to search using keywords.

### Beware of predatory journals

JANE relies on the data in PubMed, which can contain papers from predatory journals, and therefore these journals can appear in JANE's results. To help identify high-quality journals, JANE now tags journals that are currently indexed in MEDLINE, and open access journals approved by the Directory of Open Access Journals (DOAJ).
