STELLA MARIS COLLEGE (AUTONOMOUS) CHENNAI, INDIA

ABOUT THE COLLEGE

Stella Maris College, a Catholic minority institution of higher education for women, was founded on 15 August 1947. Beginning with 32 students in a small, one-storey building in Santhome, Mylapore, the College was relocated in 1960 to its present campus “The Cloisters” on Cathedral Road in the heart of the city of Chennai. Today, the College has an enrolment of 6166 students from diverse backgrounds, communities and nations.

The College is an autonomous institution affiliated to the University of Madras and is partly residential. It is under the management of the Society of the Franciscan Missionaries of Mary, a Catholic, religious congregation founded by Blessed Mary of the Passion (Hélène de Chappotin) in Ootacamund, Tamil Nadu in 1877. Guided by her charism, the initiatives of the College arise from a sound philosophy of life based on faith in God and the contemporary reality of a pluralistic Indian society which is challenged by global ideologies and cultures. The College is committed to serving the economically and socially marginalised sections of society. It provides university education in a Christian atmosphere for deserving students, especially those belonging to the Catholic community. Admission is open to all irrespective of caste and creed and their rights of conscience are respected.

“Truth and Charity” is the motto of the College. To seek knowledge is to pursue truth. The College strives to encourage young women to continually search for Truth, and grow into mature and responsible women, ready to face the challenges of life at home and in society. The quest for truth and the untiring spirit of selfless service is the hallmark of a true Stella Marian.

The College emblem represents a ship sailing on stormy waters led by a star. This symbolises the student’s life, guided amidst tempests by the light of the Star of the Sea, Stella Maris.

Blue and Gold are the colours of the Stella Maris standard. Blue symbolises truth, loyalty and fidelity and Gold symbolises love, zeal and charity.

Vision Statement

The vision of the College is to build a vibrant and inclusive learning community in a culture of excellence sustained by a sound value system that promotes responsible citizenship and effects social change.

Mission Statement

The mission of the College is to empower young women to face the challenges of life with courage and commitment, to be builders of a humane and just society, and to promote a learning community in which all, especially those from less privileged backgrounds, feel part of the collaborative high quality educational process which is value based and leads to holistic growth.

To realise this vision and accomplish its mission, the College has set the following objectives:

- to develop in the College, a community of individuals endowed with intellectual curiosity, and an eagerness for lifetime learning, who will use knowledge creatively for social transformation
- to form women of character, with sound ethical principles and integrated personalities
- to instill in the students a sense of national pride and appreciation of Indian traditions and cultures
- to create awareness among students about current socio-economic, political and cultural issues and to denounce all forms of oppression relating to class, caste and gender
- to sensitise students to environmental issues, thus motivating them to promote ecological justice and sustainable development
- to establish a link between the institution and policy makers through collaborative research leading to social development

Stella Maris College became autonomous in 1987. It currently offers 24 undergraduate and 15 postgraduate programmes, with 7 departments providing research opportunities leading to Ph.D. degrees. Certificate courses are also part of the curriculum. The College frames its own courses of study and adopts innovative methods of teaching and evaluation. The College introduced the Choice Based Credit System (CBCS) for undergraduate programmes from the academic year 1997-98, and for postgraduate departments, from the academic year 2000-2001. The CBCS allows students flexibility in choice of certain courses offered in the programme of study. Additionally, highly motivated students can gain extra credits over the minimum prescribed for completing the programme of study. In keeping with its tradition of promoting innovation and growth, the College has introduced the Learning Outcomes-based Curriculum Framework (LOCF) for all undergraduate and postgraduate programmes from the academic year 2023-2024. The LOCF is a framework that outlines the expected learning outcomes and academic standards for graduates of a given programme. It provides higher education institutions with an important point of reference for designing teaching-learning strategies, assessing student learning levels, and periodic review of programmes and academic standards.

The focus of the framework is on planning, mapping and measuring of learning outcomes. The programmes offered by the College are in accordance with Programme Outcomes (POs) and Programme Specific Outcomes (PSOs). The courses offered in a programme are planned with Course Outcomes (COs). The POs, PSOs and COs are aligned with the Institution's Vision, Mission and Educational Objectives. These outcomes are further aligned with national and global mandates that promote graduate attributes such as lifelong learning, employability, entrepreneurship, and meaningful engagement with social realities.
